Notes:

All times in this itinerary are estimates only. Times, dive sites, and number of dives can change depending on weather conditions, dive skill, and special requests or circumstances.

All dive operators must comply with a dive system booking that requires them to book the planned dive sites a day before. Only 1 operator is allowed at 1 dive site in order to conserve Misool's Protected Area. Therefore, requesting a certain dive site is possible, but it is not guaranteed if it is not approved by the organizer or if water conditions are not appropriate.
